

Ecotek Scientist Secures Internship at Top Engineering Consulting Firm

Evan Morton, a 10th grade student scientist in the Ecotek Lab Program, has leveraged his research portfolio and global awareness to secure an internship at NTH Consultants, Inc, a top environmental engineering company headquartered in Michigan with offices in Ohio and Indiana.

NTH provides services related to infrastructure engineering, environmental management and evaluation of construction materials including roofing, steel, concrete, and pavement. Its customers include Fortune 500 companies across the United States.

Evan will be working with NTH engineers on a wide range of environmental management projects. His research in Ecotek Lab has ranged from environmental conservation to biofuels to biomaterials to wind energy. He is currently wrapping up work in the lab on the difference in hydrocarbon emission of bioethanol and Octane 87 fuel. He started in the Ecotek Lab program in the 7th grade.

About the Ecotek Science Program

Ecotek is a science research lab program for young inventors and researchers in grades 5 thru 12. Student scientists work on projects aligned with the issues being addressed by world leaders at the United Nations. To learn more about Ecotek Lab go to <http://www.ecotek-us.com>
